

Mandom Expresses its Support for the TCFD's Recommendations and Joins the TCFD Consortium

Mandom Corporation (Head Office: Osaka City; President Executive Officer & Director: Ken Nishimura; hereinafter referred to as "Mandom") has expressed its support for the recommendations made by the Task Force on Climate-related Financial Disclosures (TCFD^{*1}) and joined the TCFD Consortium,^{*2} which was established with the aim of discussing the effective disclosure of corporate information and appropriate initiatives related to the TCFD.

In the future, Mandom will analyze the risks and opportunities that climate change will bring to our business and expand related information disclosures based on the TCFD's recommendations.

The Mandom Group recognizes the pressing need for the world to work together to take actions against climate change in order to realize a sustainable society. Mandom upholds "social responsibility & sustainability" as its philosophy, which itself is equivalent to the sustainability of Mandom Group. To solve social and environmental issues, we will adhere to sustainable management (ESG management + SDGs management), and we will continue to operate our main business in line with sustainability policies to provide further Dedication to Service (Oyakudachi) to consumers and create new corporate values through our business operations.

■ Mandom's sustainability strategy and materiality

*1 TCFD

At the G20's request, the Financial Stability Board (FSB) was established in 2015. The FSB evaluates the financial impact that climate-change-induced risks and opportunities have on management and recommends disclosing information on governance, strategies, risk management, as well as indicators and targets.

*2 TCFD Consortium

Established in 2019 as a forum for discussing the effective disclosure of corporate information and the efforts that financial institutions and other organizations should take to link disclosed information to appropriate investment decisions. The initiatives are promoted by the companies, financial institutions and other organizations who support the TCFD's recommendations.
